

FREEDOM OF CHOICE SERVICE

American Linen Rentals freedom of choice service is our way of introducing prospective linen customers to the textile rental industry. There are numerous linen suppliers to choose from, most operate from the same basis - their companies' success is based on low initial pricing, average quality, a good delivery man and the security of having you sign an iron clad five year rental agreement that automatically renews for like terms unless you give notice of cancellation 60 days prior to expiration. The following comparison illustrates our policies (American) versus our competitors on average - some have more - some have less.
